## TEST OF FAITH

Authentic Media. Paperback. Book Condition: new. BRAND NEW, Test of Faith, Ruth M. Bancewicz, Faraday Institute for Science and Religion, Is God a delusion? Are science and Christian faith incompatible? Ten scientists tell their stories. There is a popular myth at large in both modern society and in many churches. According to this myth science and Christianity have been engaged in a long battle over the centuries. For many secularists this means that we must embrace science and reject religion, whilst for some Christians it means the exact opposite. But are science and Christian faith really in a conflict? In this book ten respected scientists share their life stories and their reflections on science and faith. What led them to become scientists? Why did they embrace Christianity? And how do they relate their religious beliefs to the science that they do in the lab? The stories that they tell help us to see that when it comes to answering some of 'life's big questions' we do well to listen for the insights from both science and faith. Contributors include: Dr Francis Collins, Professor Alister McGrath, Dr Ard Louis, Dr Jennifer Wiseman, Professor Bill Newsome, Rev Dr John Polkinghorn, Rev Dr Alasdair Coles, Dr Deborah B. Haarsma, Professor Rosalind Picard, Professor John Bryant. 'The level of human insight matching scientific expertise in these chapters is high, and they have left me feeling that here are folk with whom, as a mere theologian, I would love to spend some time. I hope other readers will enjoy this set of testimonies as much as I have done.' - Professor J. I. Packer, Regent College, Vancouver, Canada 'Just the book to give to anyone who thinks science disproves religion. Powerful testimonies from ten distinguished scientists reveal why their faith in God enhances their research....
