Young minds are introduced to zoology as a science by discussing animals' forms, functions, and behaviors as well as the history behind zoos and aquariums. Related activities include baking edible animal cells, playing a dolphin-echolocation game, and practicing designing an exhibit. Young readers can peek into the world of zookeepers and aquarists, veterinarians, wildlife researchers, and conservationists as they "train" their friends, mold a tiger's jawbone, and perform field research in their own backyard.
