That is why, you can be certain that millenniums ago when some enterprising soul learned how to domesticate wild plants and grow them in his own little yard for food, shelter and wood, one fine day he decided - what is going to happen if I can grow the branch of such and such tree on such and such other tree? That means I am going to have oranges and apples in one parent tree. The start of such creative ideas must have given rise to many bizarre experimentations, most of which would fail monumentally. However, as time went by, and...
